

Carolina Avionics Presents

At this event you will learn all about PAUSE: Personal Awareness Using Situational Evaluation. It is a tool that was developed to help YOU to Stop or Pause before YOU move forward and take action to accomplish a task. We will also discuss Failure to Follow Procedures, which emphasizes the number 1 national maintenance related error causal/contributing factor in aviation accidents. Don't miss it. This event is intended for the employees of Carolina Avionics but other aircraft technicians may attend. Call the repair station to sign in.

Directions: This event will be held in the main office of the repair station for employees of Carolina Avionics.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
